

People in this community need K-Love. It is always there with the positive message of God. Those people who can't get to church or have no one else to talk to depend on K-love so they can hear God's message. K-Love not only ministers to people, but it also counsels people. The on staff pastors are always there for those people who need them. They talk to all kinds of people. They even talk to people who are suicidal. It would be devastating to lose K-love. Parents depend on it for their children, so that they aren't hearing things that they shouldn't. People depend on it just so they can hear something positive. Lots of people have turned to God because of K-Love. Anything that is this powerful should be fought for. It is obvious how much people need K-Love when they are willing to put forth their money to keep it on the air. We would be losing a very valuable part of the ministry if K-Love were to be taken away. People need to have the message of God near them, even if the only time they hear it is when they are listening to the radio. PLEASE DON'T REPLACE K-LOVE WITH ANY OTHER TYPE OF PROGRAMMING.
